Act of Service

The simplest yet least understood aspect to participating in Beyond Reiki, or any form or system of Spiritual development, is The Act of Service. Major 'World Religions' have codified this into meaning lost rituals, for a congregation of participants, often with a person leading the ritual having little comprehension of what their actions are meant to signify? If the participants do not take responsibility, for the intended consequences of an action, no permanent change in the outcome can be manifested. This is how come many ritual actions can fail to alter a person's life path. Particularly because Ritual turns over the outcome to the subconscious – the least spiritually developed aspect of us all!

So let us now examine the special Act of Service represented by a Reiki Treatment. In Foundation – Beyond Reiki First Degree you are taught the boundary conditions required that allow safe transactions, for the delivery of Reiki to a recipient. Here it is only after your own personal schedule of self treatments, when you go ahead, offer and deliver Foundation Reiki to another, that much of the Reiki course makes proper sense. You can continue to learn every time you treat a friend, or family member, particularly if you refer back to your manual and explore your experience of the Human Energy Systems of those you treat.

In Journeyman – Beyond Reiki Second Degree, these boundary conditions are further enlightened and you are granted abstract tools to explore problems and situations. Now you may choose to practice professionally (once you have acquired professional indemnity insurance). Having encountered the three Sacred Symbols, at the Journeyman level, your progress is defined by your next action. Once you are attuned to the Sacred Symbols you will next need to be treated by those Sacred Symbols (receiving a service from each), then you will need to treat another with those Sacred Symbols.

Act of Service

It is in the receiving and giving of a treatment with each Sacred Symbol, in a sequence of three special supervised circumstances, that completes the Second Degree Act Of Service. The special Journeyman completion, of the Second Degree Act of Service comes with profound experiences of Earth & Water Reiki - culminating with the practitioner receiving their first taste of what has become know as 'The Grail'. The Journeyman completes this stage of their training, with an upgraded and more profound grounding connection - enabling them to channel clear, clean and stabilized energies on behalf of their clients. Only in The Act of Service for another, can the cup of the grail be reached.

The greatest of all Act of Service is made when an individual, without the aim of personal gain, repairs, in another, the same issue as they carry within themselves. Here the Act of Service becomes Redemptive. For a parent this means that because, by definition their child is 'their Issue', treating their child is also treating their own issues. Helping in the healing of their child, here in Masters Sacred Space, acts to clear, cleanse and elucidate their own issues (especially the hidden blind spots blocking their progress).

Treatment Training Treatments

When a parent clears their own baggage, they lift a burden from the shoulders of their child. If the parent is then brave and truly faces the burden they put upon their child (through the simple mechanics of life), they clear the path for that child to have a better life. All children inherit their parents un-addressed Karma. So a block or issue, in the parent, will always evidence in the child. The child inherits the parental blind spot, so the parent often cannot see their own issues, manifesting in their offspring, until it is too late to act!

The most human Act of Service is to treat our parents and children - remembering at all times to turn the outcome over to the highest good, whilst recognising our limitations and referring on when we are out of our depth.

Each individual generates a unique path to advancement. I am strictly forbidden to push or pull, a practitioner, to meet an agreed destiny. Destiny unfolds through a series of attunement space agreed, unique to the individual, milestones or 'Events'. Some will require Soul Retrieval to progress, some will need to complete Medicine Powers before moving forward, but I'm only permitted to clear obstacles as they arise. So if there are impediments to progress we must simply clear them as they arise. Some need Psychic Surgery (requiring the participation of two Beyond Reiki practitioners). A few need to turn about and make repair to a Father or Mother. Some are required to assist their children through the turbulence they previously generated for them.

Golden Ray - Beyond Reiki Advanced

People who seek the Golden Ray Reiki connection do so for a number of reasons, some of which form their genuine driving force and some do not. My own original motivation came about because I did not believe I was suited to teaching Reiki and the sometimes onerous duties of its Mastery left me cold. For me it was the accessing of a deeper understanding of the Sacred Symbols of Second Degree Reiki that excited my interest. What had me totally committed was the idea of the acquisition of a beautiful golden strand, to my personal Reiki rainbow. I had no idea that my relationship to Focus, Flow & Structure would be inexorably and beautifully altered.

During one of my Advanced attunements I had an experience, or gained access to the memory, of a whole life time of which I had no prior knowledge. This returned packet of myself contained a 26 year long life, in another world, under vastly different circumstances from our own, where I learnt a different way of being.

**Personal
Reiki
Perspectives**

My personal development was advanced through attunement to the Five forms of Chi, suddenly Yin and Yang became obvious and the consequences to all actions became self-evident. We each attune to the level we are capable of and then manifest this back into our lives, as the learning experiences that make personal sense of this. At one of my Golden Ray attunements I was amazed to be invited and more amazed to find myself enthusiastically accepting invitation to train towards Reiki Mastery. Later you should have seen my astonished face, when I failed my first interview for attending the Reiki Masters course!
