Grace - For a Moment Overcome By Grief

Thank you to Pegi Lehane for drawing my attention to this breath taking image (taken from The Times site, just click the image to read the article).

http://www.timesonline.co.uk/tol/sport/football/premier_league/chelsea/article3861553.ece

I'm not a Chelsea fan however I am a fan of this fine Cob Swan. The Medicine of Swan is the divine Grace that overcomes Grief and Frank seems transfigured, for a moment, by the grief of the very recent death of his Mother. This weekend Mr Lampard's uncle Harry Rednap won the FA Cup, with all their family looking on and today the motto in my diary reads 'Some people think football is a matter of life and death...I can assure them it is much more serious than that.' Scottish footballer and club manager Bill Shankly (Swan).

Usui Tradition of Natural Healing

Directly encounter the Elemental Energies and the Spirits of The Directions in this profound course - open to all who have achieved Journeyman Beyond Reiki Second Degree. This course integrates with those who have already achieved their Medicine Powers and those who have not, because your personal teachers of the Elements and Directions can be attuned to you before [Pathfinder](#), or after.

Following the spectacular first launch of the [Beyond Reiki Advanced Degree](#), I was put on notice to deliver this course, as a broadening necessity for some of those participants. All who wish to proceed to Mastery are required to have completed this course, as proper preparation. [Pathfinder](#), in it self carries a wealth of experience and learning that adds true value to any Medicine Bundle of the Healer, Warrior or Teacher.

Attunement to the [Golden Ray](#) brings the initiate into contact with the Eastern Five Phases of Chi. Many Westerners regularly mistranslate this as the Five Elements of The East. This error has led to constant mistakes in handling Human Energy systems, by Westerners, applying Energy Medicine in a Western Medicine model. Just think of the havoc you would provoke if you connect the plumbing in your home to the electricals and this is a direct measure of the incompetence promulgated amongst many well meaning healers!

The time has come when it seems appropriate to share more of how come Beyond Reiki is so much more advanced than the general Reiki most people encounter. First comes the necessity to be profoundly grounded and secure - before adding on new psychic or energetic skills. Just think of how easy it is to plug in many modern electrical gizmo's, into a single socket, overload it and so cause a house fire. Here you have the necessity of the [Foundation](#) course and its assertion of proper safe respectful conduct in all transactions. Then consider that the [Journeyman](#) course is the entry level to any professional practice, that changes your relationship to proper boundaries.

Soul Retrieval before Golden Ray is the first keystone of stable access to higher levels of reality. A second Soul Retrieval Ceremony, at the Advanced Level, enables even more profound access to the energies of the Golden Ray. As Beyond Reiki is at a quantum level above and completely encompassing Reiki, so the three Higher Journeyman Beyond Reiki Degrees are a quantum level above the level of Foundation, Journeyman and Beyond Reiki Mastery!

Personal Reiki Perspectives

James
Drew Edwards

My first experience of Reiki was that of doing both Reiki 1 and 2 (not at the same time) with someone in Kent. This didn't seem to have any appreciable effect. Other than a slight effect to the crown chakra – I pointed this out at the time, and the teacher seemed slightly surprised as though this had never happened before! Going through Beyond Reiki training with Chris was a rather different affair – in some ways more 'traumatic', and definitely harder work. The 21 days beforehand brought up a variety of issues, and this was followed by a further roller coaster ride of another 21 days.

Chris made a number of alterations to the way that my energy functioned, repairing breaks in energy flow and removing energy blockages; the experience came at exactly the right time for me as several physical problems had reached a crisis-point. He did a lot of work on my sacral plexus as well as repairing the Ren channel that had become 'broken'. Chris has also done some work on the posterior cruciate ligament of my left knee, which I had torn several years before whilst chain sawing the top off a tree. After his work of clearing out the debris, the knee immediately felt stronger, and has remained so to this day, apart from the occasional minor problem.

Following [Journeyman Beyond Reiki 2](#), I immediately had a kidney stone – an extraordinarily painful experience that I'd had something like 5 times before, but not for about 6 years. I wasn't altogether surprised though, knowing that things were going to change fairly dramatically; it was either the birth or the death of something major. A side benefit though was that the hospital treated me to gas & air on top of pethedine!

It was following the Reiki sessions that I understood the physical connection/relationship of the lower Lumbar (small of the back), to the upper Thoracics (roughly 1-9), to the positioning of the neck (and the relationship of the jaw to the neck). Another major benefit that I have received is the feeling of the 'golden footprints', or to put it in terms that relate to my job (which is teaching t'ai chi), I fully found my rooting ability. This was such a strong feeling; I could feel a connection right down to the centre of the planet – a feeling of being completely anchored, which has improved my balance a hundredfold. In the Treatment Training, Chris made some alterations to my neck that affected the way that I held my head. This also has profoundly affected my tai chi.

It now seems to be more important for me to listen than to talk; talking seems to set up a kind of ping-pong effect. I'm better at being an observer – this is nothing to do with not relating to the world, quite the opposite in fact; it's a calmer relationship with the world, a more grounded one. I don't need to shout about the fact that I'm here, it's no longer necessary.

The only unfortunate effect that has happened since doing Journeyman is something that Chris warned me about. I have had a problem eating chocolate for several years now, in that it has brought about a number of unwanted symptoms. Chris said that after doing Beyond Reiki 2 I would once again be able to eat it and he was right; I have now rediscovered Chocolate!
