It has been more than a year since my vision of the future terminated. This was the profoundest shock to me, simply because it felt like all the lights were going to go out. In hindsight, I understand it was impossible to see beyond my own transition. Loosing a life may be easy for the Cats among us, but for me it seemed a calamity. Now the dust has settled, on the incendiary moment, I'm no longer walking headlong against a hurricane. Having experienced the worst case of 'Regeneration Fever', I fell flat on my face and now I'm ready for a fresh start.

## The Future is Coming!

Art and Science have combined seamlessly to generate a new Technology. From now on, any communications from this source will be in a fully digital format.

### The Next Phase

The Golden Reiki Way has now held Four Reiki Masters courses. The candidates range, at their commencement attainment, from fully functional Reiki Masters to those on the road to revision of their Journeyman status. For myself the journey, from Master's Initiation to completion, took Twelve years and so this is the maximum arc that may be followed. This is a School of Independent Reiki Masters and so my obligation to each new Masters is ended. As my obligation, to each of you, is now ended. Till death do us part, is simply an old expression of the Shamanic rule relating to People, Powers & Places (Births, Marriages & Deaths).

Ongoing training and attunement is offered and available, on request, though I will no longer be available in the same manner as I was. The first difference is to be found in the terms and conditions. My practice was previously focused simply on the Teaching aspect and now a greater Scrutiny will play a major part. In practical terms, this means I will continue to treat those I'm training, however these treatments may form part of a wider teaching resource.

**Teaching and Treatments may be recorded for training purposes.**

**New Services will be available shortly;** House/Home Energy Clearing, Ceremonial Training, Ceremonial Space Generation, Business Development Coaching, Business Mentoring.

**New Products will be available shortly;** Meditation and Contemplation Tools, Dynamic Energy Diagnostic Tools with applications at Every Degree Level.

**New Treatment Training Options and Home Study Materials will be available shortly;**

**Look out for Launch information Dimensional Healing;** coming your way soon.

Journeyman Second Degree, Golden Ray Advanced Degree and Reiki Master have already been requested however I need notice from you of any course needs.

### Love has 22 forms of behaviour

Reiki Mastery confers the tools that enable an individual to attune others, once they themselves have gone on their own Journey to Mastery. The tools themselves are merely tools and expertise in their use only comes through practice and diligent effort. A Reiki Master is merely a person who has fulfilled their basic potential. There are 22 levels and so 22 degrees to Mastery. For some Mastery is required for profound deep healing. The Deep healing does not come from the Master's course itself but from the road to redemption that this course initiates.

Treatment Training is person and degree specific, and its central purpose is to complete the current level of attainment and so prepare for the next. At Foundation First Degree this is often unsupervised, as the new initiate learns through overcoming personal obstacles. Journeyman Second Degree needs supervision because the obstacles are presented in other people. Sacred Symbols present the candidates issues for their own examination and growth.

Pathfinder Treatment & Treatment Training are designed to stabilise the individual through the Five elements (Spirit, Air, Fire, Water & Earth). Element Training begins with Pathfinder First Degree and may continue with either the higher initiations of the Elemental training of **Pathshaper**, Reiki Mastery, or focusing on the individual Elemental teaching courses (First to launch will be **Crystal Healing**).

Golden Ray first Degree is followed by Golden Ray Second Degree, when the engineering techniques employing the Five Phases of Chi are taught. Prior requirement is Second Level Soul retrieval.
